**Centuria Medical Makati
at Century City**

Century Properties – Oct 2011

Excavation works in progress at Centuria Medical Makati

Following its groundbreaking ceremony early this year, Century Properties' world-class outpatient medical centre called Centuria Medical Makati has completed site clearing works.

Subsequent ground works are currently in progress, with excavation reaching a depth of five meters as of October.

Centuria Medical Makati is a one-stop, outpatient medical-IT center in partnership with GE Healthcare that is located at Century City, Makati. The centre offers asset ownership for its clinic and wellness spaces and is envisioned to house medical, wellness and alternative medicine practitioners, with facilities such as a diagnostic floor, a commercial floor with cafes, and recovery suites for minor surgeries.
